Auditor Ellis and Free Soil.

The Auditor of State, State Printer, and Editor of the Statesman, is not only determined to divorce himself from all connexion with free soilism, but obstinately denies ever being wedded to this one idea. When charged with it he becomes mad as a viper in dog days, and hisses and snaps at everything around him. During our absence in Washington the last winter, Mr. Bolton, our Assistant, and now the worthy and popular Librarian, wrote a paragraph during last winter, intimating that the skirts of the Auditor was not entirely clear of Abolitionism. To which he replied in the following Auditorial and Ellissonian style:

"If the lying skunk has ever seen anything like Abolitionism in our columns, let him point it out. If there hitionism in our columns, let him point it out. If there are any evidences that our paper is the organ of the Abolitonists, let him produce them. There is not a line nor a word on record that can convict us of Abolitonists, let him produce them. There is not a line nor a word on record that can convict us of Abolitonists, let him produce them. tionism, and the lying dog knew it when he wrote the

ing State Convention, he says:

with the true principles of democracy, as taught by the tests, and interpolations in the party creed. We have contended for the faith in its purity-for toleration, for concession, for forbearance, and we have been gratified boleth to distract and divide us."

of the "Indiana Statesman" was hailed by the free- not be separated.

Auditor, not because he has indulged in low and the same effect, which was adopted.

This, however, was not entire in reference to certain articles deposited in the State Library by the gallant Capt. Simonson, certain Whig Senators felt themselves called upon to denounce the Senators felt themselves called upon to denounce the Judge Huntington to the Grand Jury- From this articles we make the following extract:

This is the policy of in reference to certain articles deposited in the State and how to conduct his business. All the States around and how to conduct his business. All the States around and how to conduct his business. All the States around and as Indianians, we hold all persons who are in favor of further agitation, as enemies to the welfare and prosperity of our glorious Union.

AND AGENCY.—I have opened an office in the City of further agitation, as enemies to the welfare and prosperity of our glorious Union.

Col. E. D. Imont was recommended for District railroads were furnishing the means of cheap conveys and that occasion, defended the administration of Mr. Polk the we make the following extract:

The policy of the States around and as Indianians, we hold all persons who are in favor of further agitation, as enemies to the welfare and prosperity of our glorious Union.

Col. E. D. Imont was recommended for District railroads were furnishing the means of cheap conveys and in developing our microspectation of the State, and would thus ance through every portion of the State, and would thus and sold and as Indianians, we hold all persons who are in favor of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the welfare and prospectation of further agitation, as enemies to the carried of further agitation, as enemies to the carried of further If denunciation of the Fugitive bill as unjust and inter and conduct of his fellow soldiers while in Mexico, iquitons be a crime. God help the guilty, for their name with the same chivalry and success that he repelled the could have been supplied with coal this winter for ten is legion—if a resolute determination not by word or act to aid in carrying a human being back to slavery be charges of the Mexicans at Buena Vista. In this lies into use, so soon as a Geological Survey would point out their legion—of a resolute determination not by word or charges of the Mexicans at Buena Vista. In this lies treason, then will the Supreme Court have its hands full the true secret of the Journal's assault upon Col. Lane. their location and extent.

Kossuth's Programme of Travels Adams, the better. And yet the charge means this, or it is gratuitous bravado, the tocsin of alarm sounded says that he is informed on the best authority, that Kos-Adams, the better. And yet the charge means this, or it is gratuitous bravado, the tocsin of alarm sounded when there is no danger.

Who believes that any portion of our citizens, however zealous in their advocacy of what they deem the rights of the Black man, or however bitter their denunciation of this infamous law, seriously contemplated treason?

All that is said in the charge about the duty of all good citizens to acknowledge the supremacy of the Laws, is just and proper enough. No good citizen will attempt by violence to resist the operation of the Law. We must submit to it until repealed or modified, and may God speed the day!

We might fill our columns for weeks with these pre.

[From the Indiana State Journal.] Dr. R. T. Brown's Lecture on the Geology of

[REPORTED BY L. BOLLMAN.] This Lecture was delivered in the Hall of Representatives on Thursday evening, in presence of a large numthe party and press of the State must repudiate his sen- ber of the members of the General Assembly. The Lectiments, or the whole ticket and whole party will be ture was an admirable one, well deserving the encomi-made responsible. The free soil party have determined ums it has received. Technicalities were generally made responsible. The free soil party have determined to make an independent organization, and will nominate a full ticket. There is therefore nothing to be gained to be gained as a to be comprehended by all present. And this of itself speaks much for the Lecturer, for it is seldom that the professional man forby nominating a man who is opposed to the compromise gets his scientific acquirements when addressing a genand in favor of the repeal of the Fugitive Slave Law; whilst on the other hand there are thousands and tens of as the speaker remarked, it is the youngest of the Sci-

tion, our knowledge of these rocks would have been exfathers. We have warned the democracy against new tests, and interpolations in the party creed. We have strata. The position of these strata as existing in Indi-The exclusion of the free persons of color from the ana was shown by the diagram, in a manner that words the lower strata were thrown to the surface, and as we passed, in a western direction, these strata became deeper and deeper beneath the carth's surface, until the Wabash was reached, when they began to rise. From From Cincinnati to Madison the rock found was the blue wrongs. the Falls of the Ohio the sandstone is found, and next to soilers throughout the State, as an important auxiliary Mr. Torbet, of Dearborn county, on Saturday, moved this and extending to within a few miles of Cannelton is to their cause. HENRY 8 RELLOGG.

THE GREAT KENTUCKY REMEDY DR. JOHN BULL'S SARSAPARILLA!! Will Wonders never Cease?

F the following cures, performed alone by the use of BULL'S SARSAPARILLA, are not wonders, then we neknowledge that we do not know the meaning of the word. Read, and be convinced that facts are stranger than

LINE P. O., Fulton Co., Ky., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The two down of your Sarsa-parilla, ordered in September, came to hand, and, in acknowledging the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the instances that have come under my observa-tion, during the last two years, of the great curative prop-

erties of your Sarsaparilla :—
Mrs. Jeannette Martin, a highly respectable lady of my neighborhood, aged sixty-five years, had been long afficted with a cancerous ulcer, which finally reduced her to so helpless a condition, that she could not leave her bed. The tried the best medical advice in our county, without relief, and had given up all hopes of a cure. At this stage of her and lisd given up all hopes of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sarsuparilla. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly good effect. She continued to use it until, after the use of five or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost sutirely recovered her health, and from her I received the account of her disease, and in about the same words I give it to yo. This is but one of a number of cures under my observation—of very remarkable ones—perfermed by the use of your Sarsaparilla, in my neighborhood. The esmand for it has steadily increased since its introduction here.

Very respectfully, your obedient servant,

WM. R. DICKINSON, P. M.

Borne County, Ky., Oct. 6, 1851. Dr. John Bull: Bear Sir.—I have seen the most marvellous cure of one of my patients, by your valuable medicine —an old lady, who had been afflicted from her childhood with scrofula, and various diseases of the brain. She was sixty years old. It had run into something like leprosy, and the was the most frightful creature my eyes ever beheld. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our power to relieve her; but, on going to my office, I accidentally picked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected, I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her some more. She is now taking the sixth bottle, and I consider her entirely cured. I take great pleasure in recommending your Sar-

Yours respectfully,

saparilla to the afflicted public. JOHN M. ROSS, M. D.

I, Thomas A. Ringo, of Graves Co , Ky., for the benefit of mankind generally, do hereby certify, that on or about the 19th day of October, 1847, I was attacked with a very severe poin in the lower part of the abdomen, which lasted but a few minutes, and moved into the left hip, and con-tinued exceedingly poinful for about five days, during which there I had a very light fever. At the end of that time the fever ceased, and the pain abased for a day or two, after which it again returned, and was much worse than before. During atl this time I was under medical treat ment. From a short thas after I was taken, I was unable ced rising, until some time in January, when it burst, and a number of pieces of home came our-as many as twenty, at least. Some of the pieces were three-fourths of an inch long. Some time after this, a hard knot appeared on my right hip, also one on my right wrist, and one on my leg, below my knee. I continued to get weak and worse, and poin made its appearance in my right shoulder, and would move in my breast and stomach. At this time all persons gave me up to dis. A physician then told me that, as a last remedy, I had better use MR. BULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist com-menced getting sett. I opened it, and a day or two after, a piece of bone came out. My wrist soon got well, and I continued to gain strength. After I used the third bottle, I could get no more for some four weeks, after which time I succeeded in getting three more bottles. After using the three last bottler, the knot on my hip became soft; it was opened, and some corruption ran out, together with a small piece of bone, and the sore soon got well, and the knot entirely diappeared. The sore on my leg also opened, and a piece of bone came out. I continued the use of the Sarsaparilla until I used twelve bottles, and are now entirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the summer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my unsle, Thos. Neal, where I now live, and if any persons doubt this statement,

I will be happy to converse with them, if they will call on me. Signoi, THOMAS N. RINGO. State of Kentucky, Graves Co., Sct. This day personally came before me the undersigned, an acting justice of the peace is and for said county, and made eath in due form of law, that the above statement is true. Subscribed and swern to, this 15th day of February, 1850. S. P. MOUSE, J. P. fer G. C.

I, Irwin Anderson, Clerk of the County Court of Graves County, State of Kentucky, do certify that S. P. Merse, whose name is signed to the above certificate, is now, and was at the time of signing the same, a justice of the peace, in and for said Graves County, duly commissioned and unified as such, and that faith and credit are due all his official acts, as such. In testimony whereof, I have herounto set my

[L. S.] hand, and caused the seal of the County Court of said county to be hereunto affixed, this 18th day of February, 1850. EDWIN ANDERSON.

"Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with disease, that refuse to give Bull's Sursaparilla a trial. It is indeed hard to believe, but neverchoices, it is too true. What kind of testimony would it take to convince the few remaining disbelievers, that Bull's medicine will do more even than it promises? The doctor could produce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is useless to produce any more, and, indeed, it would cost a fortune to publish the many certificates that have been showered on Dr. Buil. The largest sammoth sheet in America would not contain ever names of those cured, let alone full statements of their

This medicine, when used according to directions, will Serofula or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores and Ulcers, Swelling of the Glands, Syph-ilis, Dyspepela, Salt Rheum, Diseases of the Kidneys, Diseases arising from the use of Mercury, Loss of Appelite, Pain in the Side or Shoulders, General Debility, Lumbage, bropsy, Janudice, Costiveness, Bronchitis, Sore Threat, Cougus, Colds, Weakness of the Chest, Pulmonary Affections, and all other Diseases tending to produce Consump-tion, Liver Complaints, Female Irregularities and Com-plaints, Sick and Nervous Headache, Low Spirits, Night Sweats, Exposure or Impru lence in Life, Chronic Constitational Diseases, and as a Spring and Summer Drink, and General Tonic for the System, and a Gentle and Pleasant urgative, it is superior to Bine Lick and Congress Water,
